Rank and Style : Power Dressing in Imperial China

For generations China's rulers wore emblems on their robes that identified their place in a complex system of rank and privilege. This exhibition explores how this imperial hierarchy was maintained through the bestowing and wearing of exquisitely woven and embroidered 'rank badges,' as they have become known in the West.

Identity and status, so carefully crafted and preserved among China's elite, were expressed primarily through garments and their decoration, making them virtually a second skin – so intimately connected to one's person that even in death wearing the appropriate badge assured a continuation of earthly status. The exhibition is rich in a wide variety of rank and festival badges worn by the emperor, members of the imperial household, and civil and military officials.

Rank and Style: Power Dressing in Imperial China presents for the first time in the United States selections from the Chris Hall Collection of Hong Kong. These rare and exquisite rank badges date from 1500 to the mid-19th century, with many from the Ming Dynasty (1368–1644). Numerous badges feature woven or embroidered mythical creatures such as the dragon and phoenix, while others depict rabbits, cranes and tigers. Additional pieces in the exhibition are drawn from the collections of the Pacific Asia Museum and local collections.

Dale Gluckman, Guest Curator

This exhibition will be part of the fourth city-wide collaboration of Pasadena's cultural institutions, "Art and Ideas."

THE CHINESE AMERICAN MUSEUM AND AUTO CLUB GIVE LEGENDARY CALIFORNIA PAINTER DAY IN SUNSHINE

California Artist Fused Chinese Heritage with California Scenes

(LOS ANGELES, Oct. 31, 2007) — Jake Lee, a highly respected, yet quiet and enigmatic painter who influenced numerous other artists in California for decades, has not been the subject of a major retrospective, until now. “Sunshine & Shadow: In Search of Jake Lee” an exhibition hosted by the Chinese American Museum of Los Angeles, co-produced with the Automobile Club of Southern California, marks the first comprehensive and critical review of a prolific artist who embraced California landscapes and city scenes through watercolor.

Showcasing at the Chinese American Museum (CAM) from Dec. 1 to April 13, 2008, “Sunshine & Shadow” will highlight more than 60 watercolors, including eight from the Auto Club’s WESTWAYS cover art collection. The collection will also illustrate with photos and letters more details of the artist’s professional career and his family life, which he kept distinctly separate for many years. — “Jake Lee is among the most well known and prolific watercolor artists of the 20th Century, yet we found very little published about his personal life as we researched this exhibition,” said Dr. Pauline Wong, Executive Director of the museum. “We had no problem locating his art and his influence – it lives in collections throughout the state and in the hearts of his many students. But it was more challenging to find the man. We believe this exhibition and catalogue will result in new appreciation for his artistic production and his influence.”

contemporary performances in observance of the New Year. This year's Kotohajime celebration includes a unique collaborative performance arranged and led by Hirokazu Kosaka. Viewing Los Angeles as the contemporary Silk Road, where the routes for commerce, culture, language, and art intermingle as they migrate, the performance combines an eclectic blend of traditional and contemporary arts.
