Living Flowers: Ikebana and Contemporary Art

June 15, 2008 - September 7, 2008

Japanese American National Museum

Living Flowers: Ikebana and Contemporary Art is an innovative exhibition that showcases the traditional Japanese art of ikebana alongside cutting-edge contemporary art. For centuries, ikebana has been displayed in conjunction with traditional Asian art. In Living Flowers, arrangements by masters of the Ikenobo, Ohara, and Sogetsu schools of ikebana will be juxtaposed with the works of international artists. The exhibition explores how Japanese traditions have been maintained and transformed in our present-day world, while simultaneously highlighting the influence and impact of Japanese aesthetics on the art of today.

Providing glimpses into the artistic process, ikebana artists will work within the exhibition to create fresh flower arrangements. Living Flowers will reach beyond the gallery walls by featuring informative educational and interpretive programs such as ikebana demonstrations and exhibition-related workshops, as well as inspiring family programs and artists talks that explore the link between contemporary art and traditional ikebana.

THE CHINESE AMERICAN MUSEUM AND AUTO CLUB GIVE LEGENDARY CALIFORNIA PAINTER DAY IN SUNSHINE to October 25, 2008

California Artist Fused Chinese Heritage with California Scenes

Jake Lee, a highly respected, yet quiet and enigmatic painter who influenced numerous other artists in California for decades, has not been the subject of a major retrospective, until now. "Sunshine & Shadow: In Search of Jake Lee" an exhibition hosted by the Chinese American Museum of Los Angeles, co-produced with the Automobile Club of Southern California, marks the first comprehensive and critical review of a prolific artist who embraced California landscapes and city scenes through watercolor.

Showcasing at the Chinese American Museum (CAM) from Dec. 1 to October 25, 2008,

"Sunshine & Shadow" will highlight more than 60 watercolors, including eight from the Auto Club's WESTWAYS cover art collection. The collection will also illustrate with photos and letters more details of the artist's professional career and his family life, which he kept distinctly separate for many years.

"Jake Lee is among the most well known and prolific watercolor artists of the 20th Century, yet we found very little published about his personal life as we researched this exhibition," said Dr. Pauline Wong, Executive Director of the museum. "We had no problem locating his art and his influence – it lives in collections throughout the state and in the hearts of his many students. But it was more challenging to find the man. We believe this exhibition and catalogue will result in new appreciation for his artistic production and his influence."

Lee (1915-1991) worked steadily as a commercial artist and teacher. His first works fell squarely within the California watercolor tradition. Lee said he wanted to be known as a California artist – not necessarily a Chinese American artist. In the 1960s he was asked to produce murals and paintings that reflected Chinese culture in California settings,

such as San Francisco's Chinatown for the cover of WESTWAYS, and scenes from Chinese American history for Kan's Restaurant (San Francisco).

"Lee's depictions of Chinese American urban spaces, such as Chinatown balconies and storefronts, became a commercially sustainable side bar to his landscapes and rural scenes," noted Matthew Roth, Auto Club historian. "The Auto Club's member magazine, WESTWAYS, commissioned cover paintings from Lee nine times from 1954 to 1978, and these watercolors show in capsule his evolution into full engagement with Chinese aesthetic traditions."

Gordan McClelland, noted authority on California art and co-author of California Watercolors, 1850-1970 said: "Jake Lee was a talented watercolorist whose finest paintings combine an engaging blend of California Style watercolor painting with calligraphic brushwork reminiscent of his Chinese heritage. He was a key figure in a small group of California artists that carried on American Scene painting into the second half of the 20th Century and was highly regarded as a innovative and entertaining art instructor. This recognition is long overdue."

The Chinese American Museum is located at 425 North Los Angeles Street in El Pueblo de Los Angeles Historical Monument, across from Union Station. Hours are 10 a.m. – 3 p.m., Tuesday – Sunday. Admissions are suggested donations of \$3 for adults and \$2 for seniors and students.

The Chinese American Museum (CAM) is jointly developed and operated by the Friends of the Chinese American Museum (FCAM) and El Pueblo de Los Angeles Historical Monument, a department of the City of Los Angeles. Located at 425 North Los Angeles Street within the El Pueblo Plaza in downtown Los Angeles, CAM is housed in the last surviving structure of the City's original Chinatown. CAM's mission is to foster a deeper understanding and appreciation of America's diverse heritage by researching, preserving, and sharing the history, rich cultural legacy, and continuing contributions of Chinese Americans. Mingei East and West

Sake bottle (tokurri), motif by Shoji Hamada, Japan, early 20th century

Mingei literally means "folk art" in Japanese. Literary scholar and critic Yanagi Soetsu (1889–1961) coined the word in the 1920s to refer to and champion the kind of anonymous, handcrafted objects that had begun to disappear as Japan entered the age of mass production and western-oriented modernization. Yanagi and his followers revitalized the tradition

of handicraft by re-evaluating the beauty of utilitarian objects and spurring a new artistic movement dedicated to maintaining what they defined as essential Japanese values

May 18-Oct 12, 2008 Terra Cotta Warriors, Guardians of China's First Emperor

After building the first Great Wall,
what do you do for an encore? Re-invent death.

China's First Emperor, the boy king who united the country in 221 BC and began construction of the first Great wall, was not only obsessed with building but also a fanatic about death. After experimenting with potions to prolong his life, the megalomaniac king resigned himself to death on his own terms. He would build a standing army of 7,000 soldiers to enforce his rule over the afterlife.

Now Bowers Museum presents the largest exhibit of Emperor Qin's Terra Cotta Army ever seen outside of China.

Since his birth in 259 B.C., China's First Emperor was destined to become one of the most important political leaders to rule the country. Beginning at age 13, and for the next 38 years, he assigned over 700,000 workers to build an enormous mausoleum with life-size terra cotta warriors to protect him throughout eternity.

This terra cotta army of soldiers, servants, musicians, acrobats, and animals silently remained underground for two thousand years. Until, in 1974, Chinese farmers digging a well made the startling discovery of a terra cotta head.

Now is your once-in-a-lifetime opportunity to see one of the 20th century's greatest archaeological finds, often referred to as the Eighth Wonder of the Ancient World Terra Cotta Warriors: Guardians of China's First Emperor.

The Afro-Chinese Cuban artist Wifredo Lam (Cuba, b. 1902, Cuba; Paris, d.1982) is the most celebrated artist of the Caribbean region and the first Cuban artist to be recognized as a master among the mid-20th century modern artists. Associated with Pablo Picasso during the time of Cubism and Andre Breton in the time of surrealism, Lam contributed a non-European Afro-Cuban voice to the evolution of Western art. His visual language is a synthesis of Cubism, Surrealism, "primitivism", Negritude, Afro-Cuban history and ethnicity and the religious practice of Santería. Lam was born of a polyglot heritage; his mother was African, indigenous Cuban and Spanish and his father was a Cantonese Chinese businessman. Lam said about himself, "...from childhood I didn't know the basis of my ethics or my joy... except that I was a cross-breed of many races." This cross-hybridization is the basis of Lam's artistic style, more celebrated today than during his lifetime.

The exhibition Wifredo Lam in North America presents 65 of the most important paintings, gouaches and drawings by Lam represented in United States collections. The selected works were curated by Mr. Curtis Carter, former Director of the organizing institution, the Haggerty Museum of Art in Milwaukee, Wisconsin. A national traveling exhibition, molaa is the West Coast venue for this comprehensive presentation, the first in over 30 years to be seen in the United States. Mr. Carter, the curator, will be in attendance at the Member's Opening Reception. The exhibition is accompanied by an illustrated catalog available in the museum store.

The Age of Imagination: Japanese Art, 1615–1868, from the Price Collection

June 22, 2008–September 14, 2008 | Pavilion for Japanese Art and Hammer Building

The Etsuko and Joe Price Collection is world-renowned for its collection of Japanese paintings of the Edo Period (1615–1868) featuring screens, hanging scrolls, and fan-format paintings. The Price Collection reflects the eclectic diversity of a remarkably creative span in Japan's history of visual art and is highlighted by some of the finest examples of the distinctive and compelling renderings of animal life by Ito Jakuchu (1716–1800), an artist who caught Joe Price's eye five decades ago, when the artist was fairly unknown. The collection also features Kansai-region artists such as Maruyama Okyo, Nagasawa Rosetsu, and Mori Sosen, and artists of the Edo Rimpa school including Sakai Hoitsu and Suzuki Kiitsu. The exhibition has been on a four-city tour in Japan with enormous success; it was the highest-attended exhibition in the world in 2006.

Sri Lanka Day 2008

3rd Street Promenade, Santa Monica, CA, USA

Inaugurated in 2006, Sri Lanka Day Expo 2008, third of its kind will be held on Saturday, August 23rd 2008 at the 3rd Street Promenade, Santa Monica from 10 a.m. through 10 p.m. Sri Lanka Day fulfilled a very fundamental need of the Sri Lankan expatriate community in Southern California in that it provides a time and place for the celebration of Sri Lankan food, culture, arts, crafts, business and traditions. The Food Court that served great many items of Sri Lankan cuisine was the main attraction, not to downplay the entertainment stage on the Wilshire corner, the Beauty Pageant stage on the Broadway corner and the colorful parade (Perahera) that commenced at the Broadway and ambled across to Wilshire along the Promenade.

There were more than 40 booths in all displaying many a Sri Lankan art and craft supplementing the ever-dominating food court. Almost all Sri Lankan musical groups in Southern California took part in the entertainment festival. Santa Monicans are eagerly looking forward to the third annual Sri Lanka Day Expo this year.

August 26 Painting from Within: Yi Insang (1710-1760) and the Visual Poetics of Subjectivity in the late Joseon

Presenter: Professor Chin-Sung Chang

The rise of seo'eol intellectuals in the world of art and literature marks one of the most

important historical changes in the eighteenth century. The seo'eol were a class of secondary sons³/₄sons of the commoner concubines of officials and degree-holders, belonging to the ruling yangban class yet deprived of the social privilege. This talk explores the ways in which the self-fashioning of the eminent seo'eol intellectual Yi Insang is embodied in the thematic density of his autobiographical works. His works reveal a complex mindscape of psychological dislocation and internal exile that is inseparable from his identity as seo'eol. Professor Chang will discuss how the questions of psychological self-hood and subjectivity played a significant role in the making of Yi Insang's art as well as how the artist used allegorically autobiographical paintings as a means of constructing his self and his identity.

Professor Chin-Sung Chang teaches Chinese and Korean art at Seoul National University. He has a Ph.D. from Yale, previously served as a Jane and Morgan Whitney Fellow at the Metropolitan Museum of Art, and is one of the authors of the catalogue of the upcoming exhibition, "Landscapes Clear and Radiant: The Art of Wang Hui (1632 – 1717)" at the Metropolitan Museum of Art.

Mark Edward Harris Inside Iran

The Islamic Republic of Iran is at the center of world attention, yet it remains largely unknown to the West. Award-winning photographer Mark Edward Harris traveled throughout Iran to produce the first contemporary photographic book on a place seldom seen or understood by outsiders. His images of daily life offer a fascinating view of a society of juxtapositions – ancient and modern, commercial and spiritual, serene and intense, political and personal. Inside Iran is a crucial look at a country whose future is likely to influence our own. Harris will offer a narrated presentation of images from the book. The evening program will be held in the museum courtyard; please dress accordingly.
