Gambatte! Legacy of an Enduring Spirit

November 17, 2018 - April 28, 2019

Gambatte! Legacy of an Enduring Spirit features modern and historical photographs documenting the stories of Japanese Americans who were forcibly incarcerated during World War II. Large-format contemporary photos taken by Pulitzer Prize-winning photojournalist Paul Kitagaki Jr. are displayed next to images shot 75 years ago by such noted photographers as Dorothea Lange, Ansel Adams, and others; each pairing features the same individuals or their direct descendants as the subject matter. Inspired by the Japanese concept of *gambatte*—to triumph over adversity—the exhibition chronicles the strength and legacy of a generation of Japanese Americans who persevered over unimaginable hardship.

February 7 – November 10, 2019 Lightscapes: Re-envisioning the Shanshuihua

光之景: 山水畫的當代想像

Lightscapes: Re-envisioning the Shanshuihua 光之景: 山水畫的當代想像 presents works from Nick Dong and Wu Chi-Tsung, two Taiwan-born contemporary artists. Re-imagining the philosophies of Chinese landscape paintings, the exhibition brings forward new media works and immersive light-based installations that are not often explored within this genre.

This exhibition is organized by the Chinese American Museum in partnership with the Ministry of Culture, Republic of China (Taiwan) and the Taiwan Academy in Los Angeles. Major support for this exhibition is provided by the Friends of the Chinese American Museum and El Pueblo de Los Angeles Historical Monument.

May 1, 2019 Survey in the Dunes: New Discoveries from an Old Archaeological Project in Sistan, Afghanistan

"Pizza Talk" Archaeology Lecture by William B. Trousdale and Mitchell Allen, Smithsonian Institution

Wednesday, 12:00 PM - 1:00 PM

Fowler A222

UCLA

This presentation will offer a brief overview of the Helmand Sistan Project (HSP), the only multidisciplinary, long-term, comprehensive survey and excavation project ever conducted in the southwest corner of Afghanistan. In the field in the 1970s and sponsored jointly by the Smithsonian and the government of Afghanistan, HSP identified almost 200 sites in the Sistan region-- and excavated 12 of them-- to establish the first cultural history of the region from the Bronze Age to the present, one that has not been superseded because of four decades of subsequent political and military conflict. With publication of this legacy project now underway, we report on a few highlights of the 5000 year history of the region, including a previously unknown early Iron Age culture and a pristine archaeological landscape from the 15th century CE.
